The unique LRD 25x150 MT-SX giant binocular introduces a completely new dimension to long distance day and night surveillance. The large 150mm apochromatic lenses offer incredible resolution and light gathering power with standard day-time eye pieces fitted. These can easily be replaced by special night vision eyepieces equipped with state-of-the-art XR5A autogated image intensifier tubes to give superb night surveillance.

The waterproof, seawater-resistant body allows these powerful binoculars to be used in all weather conditions.

The specially deigned eyepieces are comfortable and the binocular can be used for many hours without fatigue.

Note: These binoculars are subject to special purchasing and export regulations, details can be submitted upon request.

A robust tripod and mount to use with the binocular are available as shown.

Visit our website on www.pyser-sgi.com for further information on the complete range of products available from Pyser-SGI Limited.
